Capacity Building Program

Revised for 2014

*Tachini Pete, Salish / Diné,
Program Director.*

Increasing philanthropy in Northwest Indian Country requires education of philanthropic entities as well as Native-led nonprofits. We have had the unique experience of visiting nearly every Tribal and urban Native community in Washington, Oregon, Idaho and Montana and providing one of our five core training programs. We have extended our reach all over our service area and have come to the realization that deep long-term investment in an organization builds strong foundational operations. The Capacity Building program is about our people, empowering emerging leaders and developing the best strategies in nonprofit management, fundraising and grant writing to increase organizational capacity of Native-led organizations. Increased nonprofit development catalyzes the expansion of philanthropy within Tribal Nations and Native communities in the Northwest.
