Potlatch Fund Wants to Come to You

“This training has helped clarify my understanding of what nonprofits can do for our community,” said a recent training participant. Her words were being spoken about her participation in a Basic Board governance training yet we hear this type of comment quite frequently. Nonprofit organizations fulfill a special need in our society, often doing the work governments cannot do and for-profit entities refuse to do. Potlatch Fund trainers know the value of nonprofit organizations and have the experience developing these type of organizations. If you have considered starting a nonprofit organization or want more tips and tricks writing grant applications we want to help. Our summer and fall schedule are filling up fast. Please contact us to schedule a workshop in your community today! More information can be found online.
